Ashwin K

Kannangad, Kerala

Innovative and results-oriented Flutter Developer with 1 year of hands-on experience in delivering impactful cross-platform applications. Proven success in launching cutting-edge solutions on both App Store and Play Store. Proficient in an array of programming languages, including C, C++, Python, JavaScript, Dart, and PHP. Acknowledged for problem-solving prowess and a commitment to optimizing app performance. A collaborative team player with expertise in Flutter Bloc, Git version management, and seamless API integration. Eager to contribute technical proficiency and creative insights to elevate user experiences in dynamic app development. Open to relocation for compelling opportunities and ready to impress with a track record of excellence in the Flutter development landscape.
